Defiance College Class of 2022 First Destination Survey Undergraduate Degree Recipients

Overview:

In the spring of 2022, the Defiance College Institute for Career Readiness and Lifelong Learning administered the First Destination Survey to students graduating in December 2021, May 2022 or August 2022. The 2022 survey was updated from previous versions to include questions designed according to the National Association of Colleges and Employers (NACE) standards and protocols.

The First Destination Survey was offered to 2022 graduates via email prior to graduation. Graduates who did not complete the survey at that time were contacted via email, LinkedIn, text messaging and Facebook throughout the summer, the fall semester, and beginning of spring semester. Graduates who reported that they were still searching for a job in April 2022 were also contacted for updates during the fall semester and beginning of the spring semester. Employment information was also obtained from faculty members and staff in a small number of cases. The response rate for the survey is 92% (76/83).

If No, please explain:

I would like an Autism Studies major.

I was originally supposed to graduate with a different major. Due to unforeseen problems I was unable to graduate with this Degree. I was treated unfairly by the department in which I was meant to graduate and was not given a chance to give my side of the story or be heard when talking about what I had experienced.

Knowing what I know now and what I've learned, the professors for the major I chose were not what I needed to succeed in my chosen major. They didn't know how to teach someone who doesn't learn well through power points or textbooks, which made doing well in their class hard. And made it seem like I wasn't trying even though I was. I've had professors as me "when are you going to start studying?" After handing back a test that hadn't gone well when I'd studied days for.

I realized to late that I loved history.

I think I would maybe go for something with exercise because I help coach at my high school and I really like doing that.

yes and no. sometimes I wished I had a different internship both times. I questioned if this was the right choice for me.

I think I would go the psychology route because I am more interested in that right now. It would still prepare me for my graduate program.
